Online Open Enrollment

Live Sessions and Self-
Paced Online Modules

\$300 per student

Open to the global partners
of NC State University

NC State University Global Training Initiative (GTI) offers a virtual cultural exchange experience to our global partners. Students gain valuable theoretical framework and practical skills while exchanging with students around the globe during this intensive e-learning course which teaches participants to:

- Identify their own cultural preferences and have the tools to understand the preferences of others
- Develop cultural knowledge, awareness and understanding
- Implement strategies for living, studying and working in international and cross-cultural settings

“Having these conversations helped me dispel misconceptions about other cultures and share perspective on my own culture. It was designed as a respectful, judgement-free environment and opened up my mind to the cultures of the world.”

Learning Community Expectations: Participate. Engage. Complete. | Take Space. Make Space. | Ask questions. | Share. | Hold judgement.

Example of a cultural GIF provided by a student participant in first class.
